## Afternoon Session, Part 1

### Reflection Questions

- A. Recall a situation where you perceived your back to be against the wall. Which of the attributes (fear, hypocrisy, hatred) that Thurman says characterize the disinherited might you have experienced, if any? What did it feel like to experience those?
- B. What do you believe is God's prayer for the disinherited; for racial, ethnic, social, and religious groups, refugees, immigrants, and people who still live with their backs against the wall?
- C. How have the ideas Howard Thurman proposes, his thinking about Jesus and his liberating spirituality, about religious experience, and societal issues spoken to you?
